1977-2002 Celebrating 25

This year, Greater New Bedford Regional Vocational Technical High School celebrated its 25th Anniversary as a regional school. There were many special events and a special event logo was designed by visual design student Joshua Liberty.

Although this year marks a special anniversary, the history goes back much further than the Seventies. One of the first vocational schools in the country, its roots date back nearly a century, to the creation of the New Bedford Independent Industrial School in 1908.

When it opened in 1909, the school served only 59 students, all from New Bedford. Over the years, the school built a reputation for excellence by providing quality vocational and academic programs. In 1918, its name was changed to New Bedford Vocational School. In 1946, it became New Bedford Vocational High School. In 1955, it became the first vocational high school to be accredited by the New England Association of Schools and Colleges.

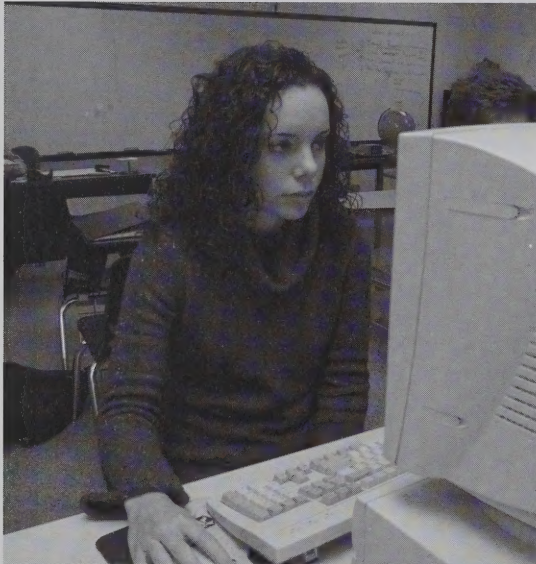

In 1972, voters in New Bedford, Dartmouth and Fairhaven approved the establishment of a regional vocational school district and construction of a regional vocational school. In 1977, Greater New Bedford Regional Vocational Technical High School was opened.

Today, the school sits on a beautiful 48-acre campus in the North End of New Bedford, Massachusetts, offering specialized training in 26 career majors. Greater New Bedford Regional Vocational Technical High School is a public, four-year vocational/technical high school for young men and women.

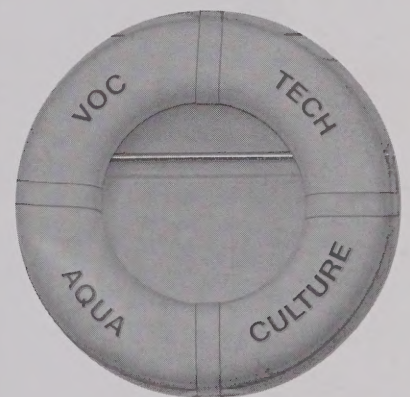

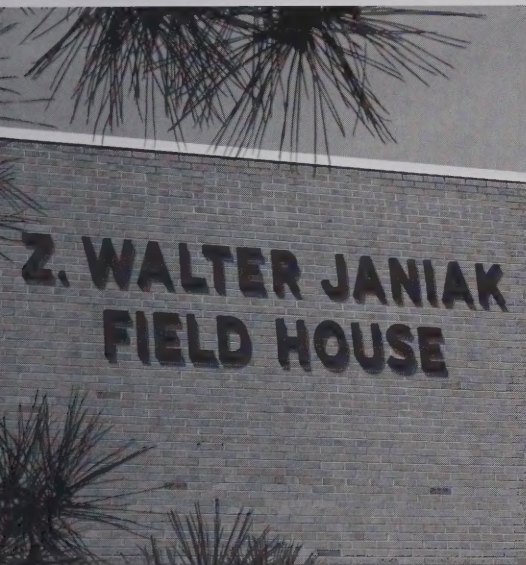

With an enrollment of more than 1,800 students, GNB Voc-Tech is one of the largest vocational-technical high schools in Massachusetts. It serves the communities of New Bedford, Dartmouth and Fairhaven, Massachusetts.

The school has an enrollment of more than 1,800 students in grades 9-12. Each year, it serves more than 2,600 adults through its Adult Education programs.

A \$22 million addition and renovation project is currently underway and is scheduled to be completed by the end of 2003. Among other things, the project will add some much-needed labs and classrooms.

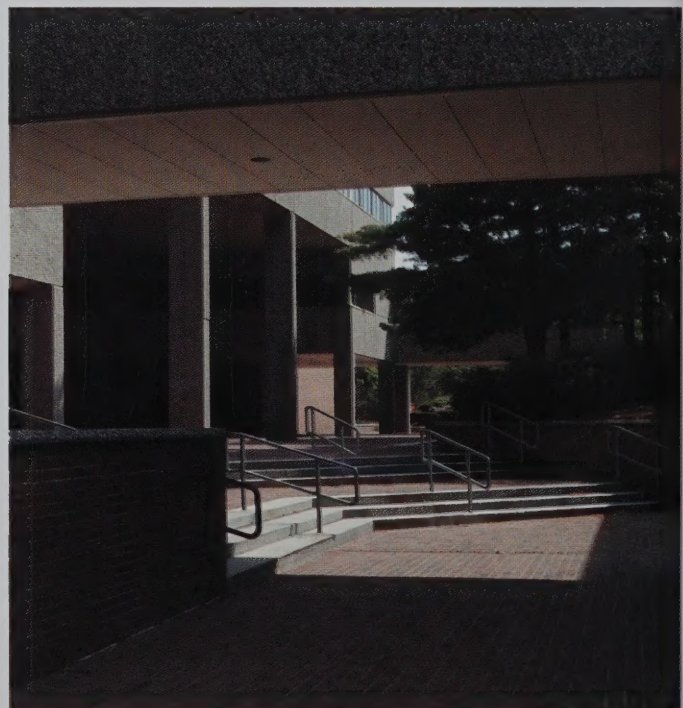

years of excellence

Voc-Tech at 25

Building for

the future

Greater New Bedford Vocational Technical High School is celebrating its 25th Anniversary by building for the future. A \$22 million addition and renovation project will add lab and classroom space.

The Class of 2003 will always be remembered as the students who shared their school with cranes and steel beams, and who helped create a new facility for future generations.

Celebrating 25 years

Greater New Bedford Vocational Technical High School is proud of its contributions to the community. As part of their educational experience, students work on a host of off-campus projects in the region. While they learn math and English like other high school students, they also work *outside* the classroom, at real jobsites. That gives them an opportunity to practice and improve the technical skills they will need in their field.

In the construction area, GNB Voc-Tech provides the technical expertise and student labor and the community provides the materials. Student and faculty crews from many of the school's programs take part.

Projects have included construction of a domestic animal barn at the Buttonwood Park Zoo in New Bedford, an Animal Shelter in Fairhaven, and additions to the Council on Aging building in Dartmouth. Students helped to build and set up the holiday display at Clasky Common Park in New Bedford, and built exhibits for First Night celebrations.

They have also developed plans for the Whaling City Pony League concession stand, helped restore the Paul Revere sign on Route 195, built walkways for the Flora B. Peirce Nature Trail, restored buildings, built homes, constructed an office building for the Center for Human Services, and assisted city and town departments in a myriad of ways.

Greater New Bedford Voc-Tech also operates a dental sealant program for second-graders, runs a "Books and Bears" project with the New Bedford Police department to assist young victims of domestic abuse and other trauma, and caters numerous community functions through its Culinary Arts program.

In a real sense, the school also serves as a community center for the region. GNB Voc-Tech High School plays host to a wide variety of civic and cultural events.

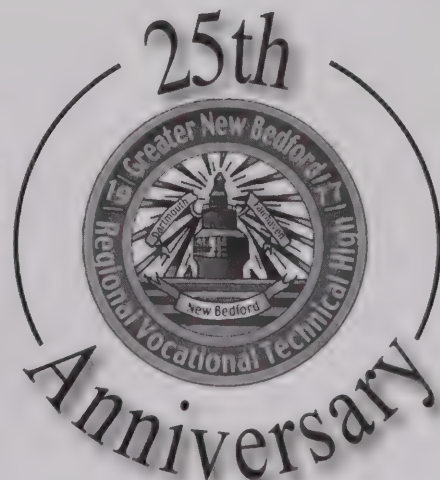

They include, among many other things, the American Cancer Society Walk for Life, the Special Olympics, the New Bedford Area Chamber of Commerce Home and Garden Show, Job Fairs, the Mayor's Annual "State of the City" Address, band competitions, invitational track meets, the Miss New Bedford Pageant, First-Time Homebuyers Conference, and meetings of public and private groups including the Airport Commission and the U.S. Census Bureau.

Greater New Bedford Voc-Tech students work on the Fairhaven Animal Shelter.

In the Beginning **Looking Back**

Honohan recalls the birth of GNB Voc-Tech HS

NEW BEDFORD — James P. Honohan has had his share of successes over the years. He was a top executive at one of the region's largest employers. He was a member of his town's School Committee.

But he's probably most proud of the role he played in helping to create a brand new school district for the region — what became Greater New Bedford Regional Vocational Technical High School. It wasn't a role he always enjoyed.

"You want to have some fun?" Mr. Honohan asks as he looks over a stack of old newspaper clippings. "Try being the chairman of a committee of the city and seven towns, where a lot of the votes end up being 11-10 or 10-9. You don't have a lot of fun going to those kinds of meetings."

As a respected official at the Acushnet Company, member of the Fairhaven School Committee, and graduate of New Bedford Vo-

ational High School, Mr. Honohan was tapped as chairman of the planning committee that helped form the GNB Voc-Tech school district.

It all started in 1969

Started in 1969, the original committee included the towns of Lakeville, Freetown, Rochester, Mattapoisett, Acushnet, and Fairhaven. Dartmouth and New Bedford — which ultimately became two of the members of what was to be a three-community district — originally sat on the sidelines. They later joined in, making it an 8-community planning group, with three members from each community.

On most issues, such as the location of the school and its curriculum, the committee managed to reach agreement. On one big issue, it argued relentlessly.

"The main issue always was autonomy," Mr. Honohan says. "Control — governance — how was it going to be run? Who was going to be in charge? The towns wouldn't agree with the City having a majority. They were worried the city would take over. We struggled with this from the fall of '69 to the fall of '71."

"That's what broke this thing up," Mr. Honohan recalls. "It just came apart."

In the fall of 1971, following a particularly rancorous debate at which a proposed district agreement was rejected on a vote of 11-9, New Bedford Mayor George Rogers announced that the city would build a new vocational school on its own. Rogers had pushed for creation of a regional school district but insisted on a voting majority for the city on the district school committee.

The idea looked dead

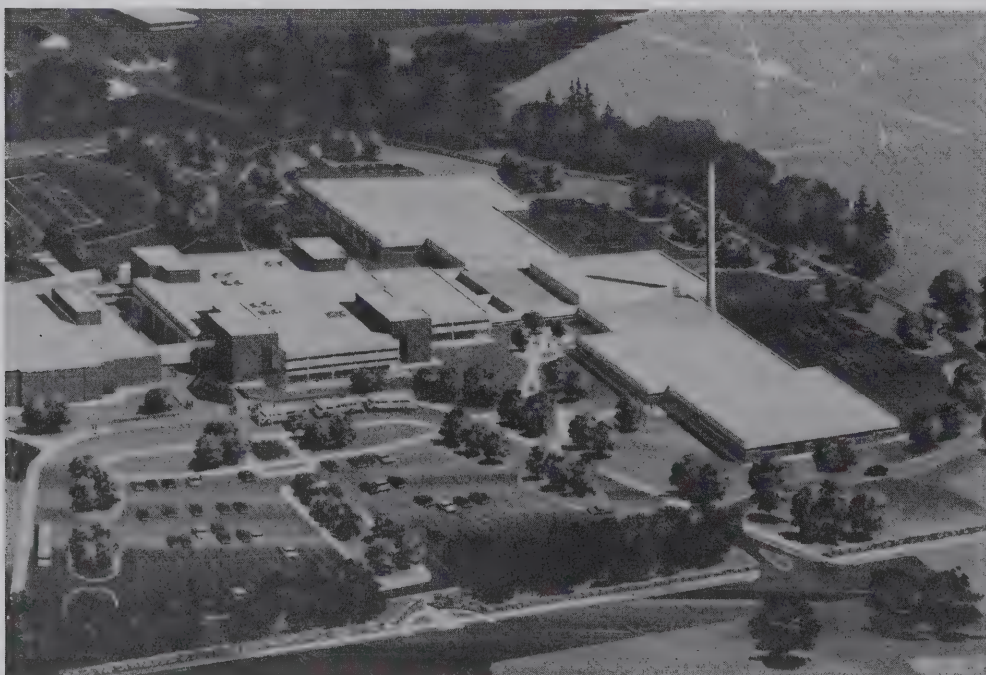

To Jim Honohan, it looked like the idea of a regional voc-tech high school for New Bedford and surrounding towns was dead.

But the political winds shifted quickly and dramatically. In his bid for re-election in 1971 Mayor Rogers was defeated by John A. Markey, who promptly contacted Mr. Honohan, an old friend.

"One night, I'm home and I got a call from Jack. He hadn't even been sworn in yet," Mr. Honohan recalled recently. "He asked me: 'Do you think we can do something on this?' And I said yes, if we can work out the makeup of the committee, all the rest is done."

Mr. Honohan then called Dr. Alan R. Greaves, a friend who led the delegation from Dartmouth. The three communities agreed to get together informally and to meet in formal session as soon as the new Mayor took office.

"We settled the governance issue the very first time we got together," says Mr. Honohan, proudly.

to 1977

James P. Honohan

Working together

Working out the agreement were Mr. Honohan, Elizabeth I. Hastings and Peter F. Barcellos from Fairhaven; Dr. Greaves, Arthur F. Middleton and Harold H. Walter from Dartmouth; and Mayor Markey, Joseph S. Finnerty, and Rosalind Poll Brooker from New Bedford. Fairhaven School Superintendent Lynwood P. Harriman served as secretary.

Equal representation

As part of the governance structure, the city got four votes on the school committee and the two towns got two each.

"We did some other things, too," says Mr. Honohan. "We agreed to rotate the chairmanship. And to get anything passed, we agreed that there had to be a majority of the eight-member committee, not just a majority of those present."

That meant that the city – on its own – could never have more votes than the towns, Mr. Honohan said.

With the governance issue finally behind them, planning committee members asked voters to endorse the creation of a regional vocational school district and construction of a new vocational high school. In May of 1972, voters in New Bedford, Dartmouth and Fairhaven all endorsed the project, by wide margins.

It's construction time again on Ashley Boulevard as Greater New Bedford Voc-Tech High School expands -- just in time for our 25th Anniversary.

Construction begins

The new regional school committee was then appointed, with Mr. Honohan being elected as its first chairman. The committee included Mr. Honohan and Walter Silveira, Jr., representing Fairhaven; Dr. Greaves and Mr. Walter, representing Dartmouth; and Mr. Finnerty, Francis J. Cox, Cecil M. Lopes and Richard J. Manning, representing New Bedford.

The new school committee hired a consultant to develop a comprehensive educational plan for the district, selected Owen F. Hackett, Jr. & Associates of Dartmouth as architect for the new school, and chose Z. Walter Janiak as the district's first Superintendent-Director.

Mr. Honohan credits Mayor Markey with prevailing upon city officials to allow the district to build the school on a 50-acre site across

from Pine Grove Cemetery on Ashley Boulevard.

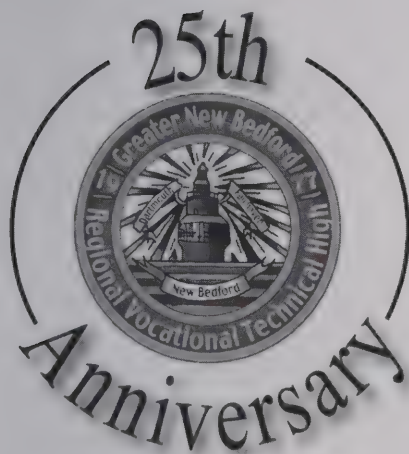

Much of the groundwork for the school had already been done by the original eight-community planning committee, Mr. Honohan points out.

A school of their own

Meanwhile, the five remaining towns – plus the Town of Carver – continued to talk about formation of their own regional vocational school district. Those talks eventually led to construction of the Old Colony Regional Vocational Technical High School in Rochester.

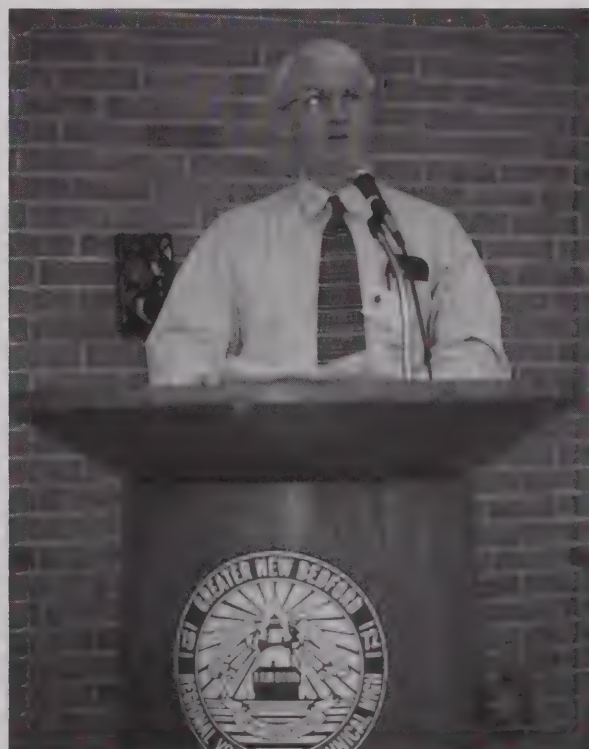

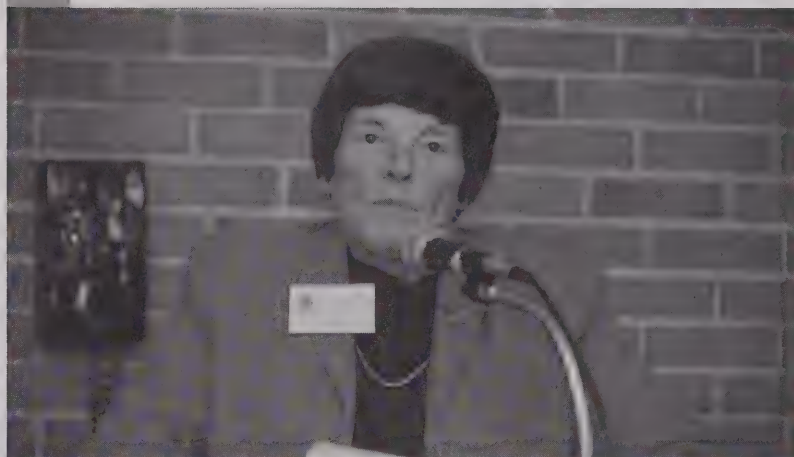

"As I look back many, many years later," says Mr. Honohan, "It was good for the entire region. And that was our main objective to begin with."

Greater New Bedford Regional Vocational Technical High School • New Bedford, MA

Jeffrey E. Riley
Superintendent - Director

A Message from the Superintendent Director

As you look ahead – to the future and to your career – you can do so with the confidence that you are well prepared to meet life's challenges. You can feel proud that you are part of a school with a long and rich tradition – a school known for its career and technical excellence, its positive work attitudes, and its service to the community.

You can leave here with the knowledge that thousands of graduates of Greater New Bedford Regional Vocational Technical High School have already traveled the road before you. Many are now leaders in business and industry in the region. Others are leaders in civic and political life. Most lead quiet, productive and fulfilling lives, rich in family and friends. All share a common experience: an education from GNB Voc-Tech.

During this past year, you helped us celebrate our 25th anniversary as a regional school and, as the first major addition and renovation project in the regional school's relatively brief history began to take shape, watched us make the necessary structural investments in the school to ensure that GNB Voc-Tech remains an integral part of this region for many, many years to come. We are now moving into the future with a new energy ... and a renewed commitment to excellence.

As Superintendent-Director, I am proud of what your class has accomplished, both at this school and within this community. As a group, you have worked hard and made us proud. And I trust that you and your classmates will continue to use your academic and technical skills wisely, wherever life takes you.

Wherever you go, remember with pride where you started: Greater New Bedford Regional Vocational Technical High School. Work hard, stay focused, and carry the positive experiences and energy of GNB Voc-Tech with you forever. You have my best wishes as you move on. Good luck!

Greater New Bedford Regional

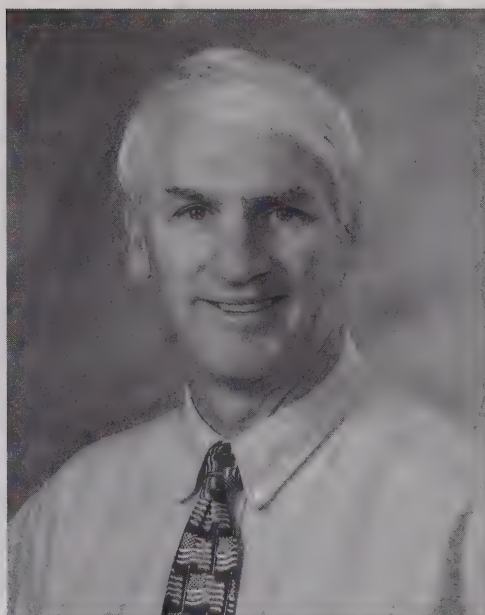

Administration,

Alice M. Pfeninger
Principal, Voc-Tech Education

As you graduate, you are well prepared to pursue your career in the 21st Century. You selected Voc-Tech to acquire knowledge, develop a marketable skill and prepare for life-long learning in a high tech global economy. You have been associated with an outstanding educational facility and a dedicated faculty and staff.

My sincere congratulations to you and your family on your accomplishments during this special time in your life.

Michael R. Shea
Principal, Academic Programs

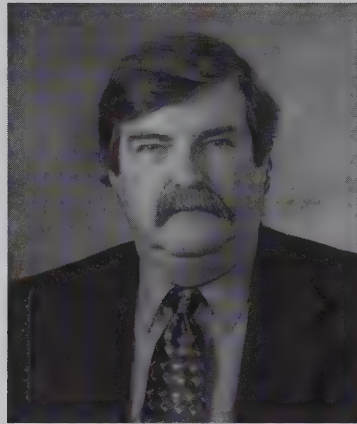

Congratulations to the Class of 2003.

It has been my pleasure to have been your Academic Principal for the past 4 years. I hope you have enjoyed your high school years and remember these words:

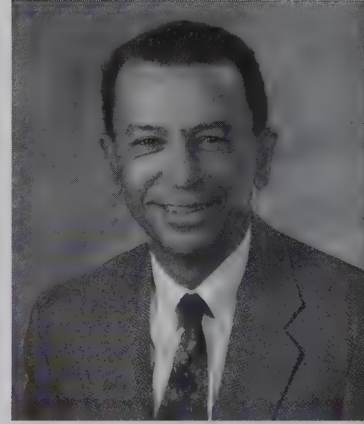

“Believe – Achieve – Succeed”

Memories

2003

Voc-Tech Times

Best Wishes To The Class of 2003!

I hope that your senior year was as much fun as what the future holds for you.

From your School Resource Officer -
Officer Mark Bento

Michael J. Sena

Michael,
We are so proud of you. We know it hasn't been easy at times, but you made it. We know the future will be good for you, so keep up the good work.

Love,
Mom & Dad & John

Terin Faye Kubik

TEZ

I am a proud big sister today as the day mom and dad brought you home. I wish you the best in everything you do in life. Always remember to live for today and never let anyone tell you that you can't do or be what you want. I love you.

Love always, Keri

Stephanie Pine

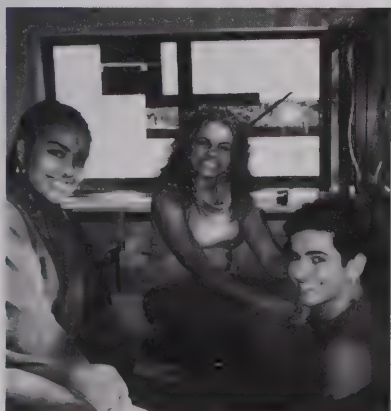

Dear Stephanie,
We are very proud of you and all your accomplishments. We love you very much and may all your dreams come true.
Love Mom, Dad, and David

Jennifer Borges

I am walking this mile with a well deserved smile recalling the faces who helped light the way thanking God for this precious gift he gave a love higher than any mountain deeper than any ocean a promise given with strong devotion that our love will always be from now till eternity.

Mom and Dad
